

**VALUE CREATION THROUGH
INGENIOUS INNOVATION**

Ensuring Safety of people
Enhancing safety of the environment
Extracting value in form of oil from sludge

*Conforms to ATEX ZONE 0 Regulatory Standards

Explore innovation and responsibility at M/s Arham Oil Gas Products and Services Pvt. Ltd! Our visionary Founders, esteemed petroleum engineers from IIT (ISM) Dhanbad, lead the charge in transforming crude oil and hazardous material storage tank/lagoon cleaning with Robotic/Non-Man Entry Technology.

We take pride in processing and recovering oil from Oily Waste/Sludge. Bid farewell to confined space entry risks – welcome a future of safety and sustainability with us!

Pioneers in using technology for safe cleaning & Responsible disposal of hazardous waste without human exposure

OUR CORE SERVICES

Robotic Storage tank/drain cleaning (non-man entry cleaning solutions)

Hazardous pit/lagoon/sump (OWS/CRWS) cleaning with online robots (No human exposure)

Processing of any industrial feed for solid-liquid and liquid-liquid separation

Recovering oil by re-processing of oily sludge/slop/tar

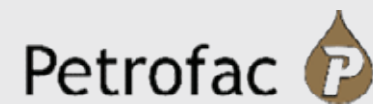

Floating oil removal services (Trailer Mounted Oil Skimming)

Founded By
2 Petroleum
Engineers
From IIT (ISM)
Dhanbad

Developed
Indigenous
Expertise In
Robotic Recovery
& Management
Of Industrial
Sludge

OUR KEY CLIENTS & PROJECTS

SR. No	Project Name	Clients	Scope of Services	Location of Services
1.	Processing & Purification of Slop Oil and Tank Bottom Sludge to recover oil for reuse.	Numaligarh Refinery Limited	Processing Slop Oil to recover Good Oil	Golaghat, Assam, India
2.	Crude Oil Sludge Processing and Oil Recovery of Tank Tk-115 at HPCL Mumbai Refinery.	Hindustan Petroleum Corporation Limited	Tank Cleaning (1,00,000 KL) with Tilted & Floating Roof.	Mumbai, Maharashtra, India
3.	De-Congeaing and pump out of Tank- TT-108A Material by using Modern Heavy Oil De-Congeaing process.	Numaligarh Refinery Limited	To Decongeal the Heavy Viscous Material from Storage tank of Capacity 9000 KL	Golaghat, Assam, India
4.	Processing of Oily Sludge through Online Robotic System.	Indian Oil Corporation Limited	To Clean out sludge lagoon in IOCL Barauni Refinery using Hydraulic Driven Robot.	Barauni, Bihar, India
5.	Hiring of Services for Evacuation & Cleaning of Tank Bottom Sludge and making the Tanks "Hydrocarbon Free" by Robotic Process.	OIL India Limited	To remove and clean the Sludge, from 10000 KL tank with STEAM COILS, using Hydraulic Driven ROBOT.	Duliajan, Assam, India
6.	Cleaning of Tanks by Modern Tank Cleaning Method	Numaligarh Refinery Limited	To remove and clean the sludge from Crude Oil Tank of 50,000 KL Capacity.	Golaghat, Assam, India
7.	Recovery of floating Crude Oil from Waste Oil Pits using Skimmer	Vedanta Limited (Cairn Oil & Gas)	Mobile Setup for Recovery of floating Crude Oil from 50 Nos. of Waste Oil Pits spread across 100 kms	Barmer, Rajasthan, India

Arham Oil Gas Products & Services Pvt. Ltd.

A-403, Arham Regency, Sabarmati,

Ahmedabad, Gujarat 380005.
